

m_process::process
_open_read

```
graph LR; A[m_process::process_open_read] --> B[m_process::process_open]
```

A diagram showing a call from a function to another function. On the left, a gray rectangular box contains the text 'm_process::process' on the top line and '_open_read' on the bottom line. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'm_process::process_open'.

m_process::process_open
